

Biotechnology, Agronomy Society and Environment

2013 volume 17 no 4 pages 545-670 ISSN 1370-6233

Agri-food technology

- Fernández Pierna J.A., Boix Sanfeliu A., Slowikowski B., von Holst Ch., Maute O., Han L., Amato G., de la Roza Delgado B., Pérez Marín D., Lilley G., Dardenne P. & Baeten V. — Standardization of NIR microscopy spectra obtained from inter-laboratory studies by using a standardization cell 547

Applied chemistry

- Galonde N., Richard G., Deleu M., Nott K., Jerôme Ch. & Fauconnier M.-L. — Reusability study of Novozym® 435 for the enzymatic synthesis of mannosyl myristate in pure ionic liquids 556

Biotechnology

- Silué S., Diarrassouba N., Fofana I.J., Muhovalski Y., Toussaint A., Mergeai G., Jacquemin J.-M. & Baudoin J.-P. — Description of *Phaseolus vulgaris* L. aborting embryos from ethyl methanesulfonate (EMS) mutagenized plants 563

Chemical control

- Bal A.B. & Sidati S.M.. — Reduction of effective doses of insecticide against desert locust (*Schistocerca gregaria* Forskål, 1775: Orthoptera, Acrididae) nymphs using phenylacetonitrile 572

Ecology

- Michez A., Doucet J.-L., Dendoncker N., Bouché Ph. & Vermeulen C. — Preliminary description of the diet of *Hippopotamus amphibius* L. in Loango National Park (Gabon) 580

Plant biotechnologies

- Koné M., Koné T., Kouakou H.T., Konaté S. & Ochatt J.S. — Plant regeneration via direct shoot organogenesis from cotyledon explants of Bambara groundnut, *Vigna subterranea* (L.) Verdc. 584

Society

- Winandy S., De Fays M., Lebailly Ph., Palm R. & Claustraux J.-J. — Trend analysis of the consumption of ready-made food in Belgium 593

Focus on

- Abdoul Habou Z., Haubrige É., Adam T. & Verheggen F.J. — Insect pests and biocidal properties of *Jatropha curcas* L. (Euphorbiaceae). A review 604

- Arnould V. M.-R., Reding R., Bormann J., Gengler N. & Soyeurt H. — Review: milk composition as management tool of sustainability 613

- Bwanganga Tawaba J.-C., Ba K., Destain J., Malumba P., Béra F. & Thonart Ph. — Towards the integration of sorghum as an adjunct in the modern brewery industry. A review 622

- Diallo Y., Gueye M.T., Sakho M., Gbaguidi Darboux P., Kane A., Barthelemy J.-P. & Lognay G. — Nutritional importance of cassava and perspectives as a staple food in Senegal. A review 634

- Kouadio K.T., De Clerck C., Atcham Agneroh Th., Parisi O., Lepoivre Ph. & Jijakli H. — Role of satellite RNAs in cucumber mosaic virus-host plant interactions. A review 644

- Mureşan V., Blecker Ch., Danthine S., Racolta E. & Muste S. — Confectionery products (halva type) obtained from sunflower: production technology and quality alterations. A review 651

- Review of books 660
