

Biotechnology, Agronomy Society and Environment

2014 volume 18 no 1 pages 1-162 ISSN 1370-6233

Biotechnology

- Medini M., Ferjaoui S., Bahri B., Mhri W., Hattab S. & Hamza S. — Bulk segregant analysis and marker-trait association reveal common AFLP markers for resistance to septoria leaf blotch in Tunisian old durum wheat 3

Ecology

- Boudiaf Nait-Kaci M., Hedde M., Mouas Bourbia S. & Derridj A. — Hierarchization of factors driving soil macrofauna in North Algeria groves 11

Microbiology

- Tarayre C., Bauwens J., Brasseur C., Mattéotti Ch., Destain J., Vandenbol M., Portetelle D., De Pauw E., Haubrûge É., Francis F. & Thonart Ph. — Isolation of an amylolytic chrysophyte, *Poterioochromonas* sp., from the digestive tract of the termite *Reticulitermes santonensis* 19

Plant breeding

- Escarnot E., Thibaut Ch. & Forgeois P. — Study of the impact of growth substance treatment and maize (*Zea mays* L.) variety in spelt (*Triticum spelta* L.) haplodiploidization 32

Plant physiology

- Tangou T.T., Baya D.T., Liady M.N.D., Eyul'Anki D.M. & Vasel J.-L. — Contribution of image processing in monitoring the influence of nutrients on the growth of duckweed (*Lemna minor*) 37

Rural engineering

- Achigan-Dako E.G., Houdegbe A.C., Glèlè M. & Nono-Womdim R. — Analysis of the production and distribution system for maize (*Zea mays* L.) seeds in southern Benin 49

Focus on

- André M., Mahy G., Lejeune Ph. & Bogaert J. — Toward a synthesis of the concept and a definition of the zones in the urban-rural gradient 61

- Baya D.T., Tangou T.T., Effebi K.R., Zouhir F. & Vasel J.-L. — Auto-flocculation, bio-flocculation and co-flocculation of microalgae. A review 75

- Deraedt D., Colinet G., Claessens H. & Degré A. — Forest cover representation in hydrological modeling: a comparison of ten models. A review 83

- Gillet S., Simon M., Paquot M. & Richel A. — Review of the influence of the extraction and purification process on the characteristics and properties of locust bean gum 97

- Kambou D., Xanthoulis D., Ouattara K. & Degré A. — Water efficiency and productivity concepts. A review 108

- Lemtiri A., Colinet G., Alabi T., Cluzeau D., Zirbes L., Haubrûge É. & Francis F. — Impacts of earthworms on soil components and dynamics. A review 121

- Mputu Kanyinda J.-N., Pierart C., Destain J., Noki Ph. & Thonart Ph. — Impact of drying on *Pseudomonas fluorescens* viability. A review 134

- Rushemuka P.N., Bock L. & Mowo G.J. — Soil science and agricultural development in Rwanda: state of the art. A review 142

- Review of books 155
