Rodrigo Jiménez, and Jaime E. Araya**

iii–v Note of appreciation / Note de reconnaissance

ARTICLES

- 2259–2266** Proximal analysis and toxicity of extracts from young and mature leaves of the boldo tree (*Peumus boldus*) on elm leaf beetle (*Xanthogaleruca luteola*)
- 2267–2275** Assessing model performance in forecasting long-term individual tree diameter versus basal area increment for the primary Acadian tree species
- 2276–2291** Patch dynamics and the development of structural and spatial heterogeneity in Pacific Northwest forests
- 2292–2300** Seedling growth and water use of boreal conifers across different temperatures and near-flooded soil conditions
- 2301–2314** Overstory and understory relationships in longleaf pine plantations 14 years after thinning and woody control
- 2315–2325** Secondary insects and diseases contribute to sudden aspen decline in southwestern Colorado, USA
- 2326–2336** Long-term effects of increment coring on Norway spruce mortality
- 2337–2345** Butt rot incidence, causal fungi, and related yield loss in *Picea abies* stands of Latvia

Stanley J. Zarnoch, J.M. Bowker, and H. Ken Cordell	2346–2358	A mixed-modes approach for estimating hiking on trails through diverse forest landscapes: the case of the Appalachian Trail
Patrick H. Brose	2359–2374	A comparison of the effects of different shelterwood harvest methods on the survival and growth of acorn-origin oak seedlings
K.J. Kardynal, J.L. Morissette, S.L. Van Wilgenburg, E.M. Bayne, and K.A. Hobson	2375–2388	Avian responses to experimental harvest in southern boreal mixedwood shoreline forests: implications for riparian buffer management
Olli Tahvonen	2389–2402	Optimal structure and development of uneven-aged Norway spruce forests
Daniel M. Kashian, Rebecca M. Jackson, and Heather D. Lyons	2403–2412	Forest structure altered by mountain pine beetle outbreaks affects subsequent attack in a Wyoming lodgepole pine forest, USA
Pierre Mérian and François Lebourgeois	2413–2422	Consequences of decreasing the number of cored trees per plot on chronology statistics and climate–growth relationships: a multispecies analysis in a temperate climate
D.C. Drake, Paul J. Sheppard, and Robert J. Naiman	2423–2432	Relationships between salmon abundance and tree-ring $\delta^{15}\text{N}$: three objective tests
	NOTES	NOTES
Evan L. Preisser, Mailea R. Miller-Pierce, Jacqueline Vansant, and David A. Orwig	2433–2439	Eastern hemlock (<i>Tsuga canadensis</i>) regeneration in the presence of hemlock woolly adelgid (<i>Adelges tsugae</i>) and elongate hemlock scale (<i>Fiorinia externa</i>)
Thomas L. Eberhardt, Philip M. Sheridan, and Arvind A.R. Bhuta	2440–2447	Revivification of a method for identifying longleaf pine timber and its application to southern pine relicts in southeastern Virginia
