

## REVIEWED ARTICLES

- 344 **Field Tests of Naturally Durable Species** by Paul Ian Morris, Janet Ingram, Glenn Larkin, and Peter Laks
- 352 **Effects of Outdoor Weathering and Wood Properties on Liquid Water Absorption in Uncoated Norway Spruce Cladding** by Geir I. Vestøl and Mari Sand Sivertsen
- 359 **Control of Black Stain Fungi with Biocides in Semitransparent Wood Coatings** by Rod Stirling, Adnan Uzunovic, and Paul I. Morris
- 365 **[Technical Note] A Test of High Intensity Ultrasound for the Phytosanitation of Wood** by Adam Taylor, Anita Perchermeier, Timothy Young, and Lana Zivanovic
- 367 **Effects of Pyrolysis Conditions on Yield of Bio-Chars from Pine Chips** by Qiangu Yan, Hossein Toghiani, Fei Yu, Zhiyong Cai, and Jilei Zhang
- 372 **Improving the Sanding Process of Black Spruce Wood for Surface Quality and Water-Based Coating Adhesion** by Julie Cool and Roger E. Hernández
- 381 **Preliminary Experiments on the Manufacture of Hollow Core Composite Panels** by Solace Sam-Brew, Kate Semple, and Gregory D. Smith
- 390 **Effects of Changes in Impact Analysis for Planning Model Industry Sector Data on the Economic Impacts of the Logging Industry in Mississippi** by Xiana T. Santos, Stephen C. Grado, Laura A. Grace, and William B. Stuart
- 401 **Development of an Optimal Three-Dimensional Visualization System for Rough Lumber Edging and Trimming in Central Appalachia** by Wenshu Lin, Jingxin Wang, and Benktesh Sharma
- 411 **Using Value Stream Mapping to Analyze an Upholstery Furniture Engineering Process** by Chao Wang, Henry Quesada-Pineda, D. Earl Kline, and Urs Buehlmann
