## REVIEWED ARTICLES

- 76 **Potential Use of Deformed Shank Nails as a Solution to Annoying Vibrations in Wood Floor Systems** by Brent Olson, J. Daniel Dolan, Bob Duncan, and Henry Schiedermeier
- 84 **Prediction of the Decay and Termite Resistance of Western Red Cedar Heartwood** by Rod Stirling, Paul I. Morris, and J. Kenneth Grace
- 93 **Potential for Using Essential Oils to Protect Viscoelastic Thermal Compression-Treated Hybrid Poplar** by Adam Scouse, Frederick A. Kamke, and Jeffrey J. Morrell
- 100 **Preliminary Study of Effects of Tip Geometry and Material Type of Circular Saws on Cutting Surface Quality of Medium-Density Fiberboard** by Wei Xu, Zhihui Wu, Jilei Zhang, Weiguo Mao, and Qiongtao Huang
- 106 **Properties of Commercial Kraft Paper Honeycomb Furniture Stock Panels Conditioned under 65 and 95 Percent Relative Humidity** by Kate E. Semple, Solace Sam-Brew, James Deng, Francine Côté, Ning Yan, Zheng Chen, and Gregory D. Smith
- 123 **Comparison among Parameters Affecting Vertical Vacuum Dyeing of *Populus cathayana* Rehd** by Yang Zhang, Zhiming Yu, and Xiaofeng Wu
- 129 **Application of Near-Infrared Spectroscopy to Determine the Juvenile-Mature Wood Transition in Black Spruce** by Guillaume Giroud, Maurice Defo, Jean Bégin, and Chhun-Huor Ung
- 139 **Methods to Integrate Market Orientation in Technological Development: The Case of New Technologies to Produce Bioactive Substances from Wood** by Tobias Stern, Caroline Ledl, Annemarie Haydn, Sebastian Koch, Juha Hakala, Eemeli Hytönen, and Peter Schwarzbauer
- 148 **Future Development of the Norwegian Forest Industry, Based on Industry Expectations** by Hanne K. Sjølie, Kristian Bysheim, Anders Q. Nyrud, Per Otto Flæte, and Birger Solberg
- 159 **Export Performance of the Croatian Wood Industry and Its Contribution to the Overall Croatian Economy** by Željko Lovrinčević, Goran Buturac, and Davor Mikulić
- 166 **Influence of Measurement Position, Tree Diameter, and Bulk Wood Density on Models that Predict Wave Propagation Velocity in Logs According to the Velocity in Trees** by Cinthya Bertoldo and Raquel Gonçalves
- 173 **Determining the Processed Cut Stock Recovery Rate from Standing Dead Beetle-Killed Lodgepole Pine Timber** by Kurt Mackes and Mike Eckhoff
- 180 **Estimating Processing Times of Harvesters in Thinning Operations in Maine** by Patrick Hiesl and Jeffrey G. Benjamin

PTF BPI 2014

- S1 **Select Presentations from the 3rd International Conference on Processing Technologies for the Forest and Biobased Products Industries (PTF BPI 2014), September 24–26, 2014, Kuchl, Austria**
