

FOREST SCIENCE

June 2011

Volume 57, Number 3

- 171 Study of Shrub Cover and Height Using LIDAR Data in a Mediterranean Area
J. Estornell, L.A. Ruiz, and B. Velázquez-Martí
- 180 Modeling Jack Pine (*Pinus banksiana*) Foliage Density Distribution
R. Schneider, M. Fortin, F. Berninger, C.-H. Ung, D.E. Swift, and S.Y. Zhang
- 189 Hunter Preferences and Willingness to Pay for Hunting Leases
I. Munn, A. Hussain, D. Hudson, and B.C. West
- 201 Effects of Initial Spacing on Height Development of Loblolly Pine
C. Antón-Fernández, H.E. Burkhart, M. Strub, and R.L. Amateis
- 212 Estimating Riparian Understory Vegetation Cover with Beta Regression and Copula Models
B.N.I. Eskelson, L. Madsen, J.C. Hagar, and H. Temesgen
- 222 Investigating the Utilization of Potassium Fertilizer in a *Pinus patula* Schiede Ex Schltl. & Cham. Plantation
J.W. Crous, A.R. Morris, and M.C. Scholes
- 232 Fuel Complex Alterations Associated with Spruce Beetle-Induced Tree Mortality in Intermountain Spruce/Fir Forests
C.A. Jorgensen and M.J. Jenkins
- 241 Examining the Gain in Model Prediction Accuracy Using Serial Autocorrelation for Dominant Height Prediction
M. Wang, J. Bhatti, Y. Wang, and T. Varem-Sanders
- 252 Modeling and Prediction of Tree Height–Diameter Relationships Using Spatial Autoregressive Models
J. Lu and L. Zhang
