

FOREST SCIENCE

August 2012

Volume 58, Number 4

- 311** Evaluating the Robustness of Plot Databases in Species-Specific Light Detection and Ranging-Based Forest Inventory
V. Junttila and T. Kauranne
- 326** Evaluation of Technical and Organizational Approaches for Directly Loading Logs in Mechanized Cut-to-Length Harvesting
O. Lindroos
- 342** Diffuse Load Abatement with Biodiversity Co-Benefits: The Optimal Rotation Age and Buffer Zone Size
J. Miettinen, M. Ollikainen, L. Finér, H. Koivusalo, A. Laurén, and L. Valsta
- 353** A Stochastic Dynamic Programming Approach to Optimize Short-Rotation Coppice Systems Management Scheduling: An Application to Eucalypt Plantations under Wildfire Risk in Portugal
L. Ferreira, M.F. Constantino, J.G. Borges, and J. Garcia-Gonzalo
- 366** Assessing Growth and Mortality of Bristlecone Pine Infected by Dwarf Mistletoe Using Dendrochronology
J.M. Scott and R.L. Mathiasen
- 377** An Adaptive Work Study Method for Identifying the Human Factors that Influence the Performance of a Human-Machine System
T. Palander, H. Ovaskainen, and L. Tikkanen
- 390** Factors Affecting Containment Area and Time of Australian Forest Fires Featuring Aerial Suppression
M.P. Plucinski
- NOTE
- 399** On Moments of Inertia for Logs and Tree Segments
T.B. Lynch
