

FOREST SCIENCE

December 2012

Volume 58, Number 6

- 547 Effect of Undercut Style and Post Hinge Behavior in Tree Felling
K. Lyons, J. Sessions, and J. Wimer
- 559 Statistical Properties of Alternative National Forest Inventory Area Estimators
F.A. Roesch, J.W. Coulston, and A.D. Hill
- 567 Tree Location Measurement Accuracy with a Mapping-Grade GPS Receiver under Forest Canopy
C. Edson and M.G. Wing
- 577 Testing a Novel Method to Approximate Wood Specific Gravity of Trees
M.C. Wiemann and G.B. Williamson
- 592 Specification of a Size-Classified Matrix Model: The Effects on Growth Predictions and Economically Optimal Harvesting Regimes
J. Laturi, J. Lintunen, and S. Niinistö
- 606 The Drivers of Effectiveness of Prescribed Fire Treatment
O.F. Price
- 618 Greenhouse and Field Response of Southern Pine Seedlings to Pulp Mill Residues Applied as Soil Amendments
L.A. Morris, J. Sanders, E.A. Ogden, H. Goldemund, and C.M. White
- 633 Spatial Variability of Leaf Area Index in Homogeneous Forests Relates to Local Variation in Tree Characteristics
R. Bequet, M. Campioli, V. Kint, B. Muys, J. Bogaert, and R. Ceulemans
- 641 Assessing the Potential for Log Sort Yards to Improve Financial Viability of Forest Restoration Treatments
W. Chung, T.J. Venn, D. Loeffler, G. Jones, H.-S. Han, and D.E. Calkin
- 652 A Paired Watershed Investigation of Silvicultural Best Management Practices Revisited: B.F. Grant Memorial Forest, Georgia
N. Fraser, R. Jackson, and D. Radcliffe
- 663 Probability Distributions in High-Density Dendroenergy Plantations
S. Sandoval, J. Cancino, R. Rubilar, E. Esquivel, E. Acuña, F. Muñoz, and M. Espinosa
