

FOREST SCIENCE

October 2013

Volume 59, Number 5

- 505 Spatiotemporal Modeling of Swedish Scots Pine Stands
O. Cronie, K. Nyström, and J. Yu
- 517 US Imports for Canadian Softwood Lumber in the Context of Trade Dispute: A Cointegration Approach
R.V. Nagubadi and D. Zhang
- 524 Species Variation in Water Relations and Xylem Vulnerability to Cavitation at a Forest-Woodland Ecotone
D.F. Koepke and T.E. Kolb
- 536 Small-Area Estimation of County-Level Forest Attributes Using Ground Data and Remote Sensed Auxiliary Information
M.E. Goerndt, V.J. Monleon, and H. Temesgen
- 549 Understanding Landowner Preferences for Woody Biomass Harvesting: A Choice Experiment-Based Approach
O. Joshi, D.L. Grebner, I.A. Munn, A. Hussain, and S.R. Gruchy
- 559 Autumn Frost Resistance on Several Walnut Species: Methods Comparison and Impact of Leaf Fall
M. Guàrdia, R. Díaz, R. Savé, and N. Aletà
- 566 The Influence of Market Proximity on National Forest Hazardous Fuels Treatments
M. Nielsen-Pincus, S. Charnley, and C. Moseley
- 578 The Impact of Uncertainty Concerning Historical Burned Area Estimates on Forest Management Planning
D. Savage, B.M. Wotton, D.L. Martell, and D.G. Woolford
- 589 Understory Plant Richness and Native Tree Invasion in Exotic *Robinia pseudoacacia* Stands in Hokkaido, Japan
K. Masaka, K. Yamada, H. Sato, H. Torita, and H. Kon

BOOK REVIEW

- 598 Biodiversity in Dead Wood
By J.N. Stokland, J. Siitonen, and B.G. Jonsson
Reviewed by C.W. Woodall
