

FUNDAMENTAL RESEARCH

biometrics

- 205 Subject-Specific Prediction Using a Nonlinear Mixed Model: Consequences of Different Approaches
S. Sirkiä, J. Heinonen, J. Miina, and K. Eerikäinen
- 213 Evaluation of Methods for Calibrating a Tree Taper Equation
Q.V. Cao and J. Wang

economics

- 220 Economic Optimization of Forest Biomass Processing and Transport in the Pacific Northwest USA
R. Zamora-Cristales, J. Sessions, K. Boston, and G. Murphy

entomology & pathology

- 235 A Comparison of Mountain Pine Beetle (Coleoptera: Curculionidae, Scolytinae) Productivity and Survival in Lodgepole and Whitebark Pine after a Region-Wide Cold Weather Event
E.M. Dooley, D.L. Six, and J.A. Powell

forest ecology

- 247 Range-Level Lodgepole Pine (*Pinus contorta* var. *latifolia* Engelman ex S. Watson) Understory Types in Western North America
W.L. Strong
- 258 Structural Diversity within Mature Forests in Northern Iran: A Case Study from a Relic Population of Persian Ironwood (*Parrotia persica* C.A. Meyer)
K. Sefidi, C.A. Copenheaver, M. Kakavand, and F.K. Behjou

forest management

- 266 Addressing Wildfire Risk in a Landscape-Level Scheduling Model: An Application in Portugal
L. Ferreira, M.F. Constantino, J.G. Borges, and J. Garcia-Gonzalo

operations research

- 278 A Chance-Constrained Programming Model to Allocate Wildfire Initial Attack Resources for a Fire Season
Y. Wei, M. Bevers, E. Belval, and B. Bird
- 289 Prediction of Forestry Planned End Products Using Dirichlet Regression and Neural Networks
C. Hickey, S. Kelly, P. Carroll, and J. O'Connor

social sciences

- 298 Categorizing the Social Context of the Wildland Urban Interface: Adaptive Capacity for Wildfire and Community "Archetypes"
T.B. Paveglio, C. Moseley, M.S. Carroll, D.R. Williams, E.J. Davis, and A.P. Fischer

APPLIED RESEARCH

biometrics

- 311 Taper Equations for *Pinus elliottii* Engelm. in Southern Paraná, Brazil
T. Schröder, E.A. Costa, A.F. Valério, and G. dos Santos Lisboa
- 320 Modeling Tree Diameter Distributions in Natural Forests: An Evaluation of 10 Statistical Models
R.A.F. de Lima, J.L.F. Batista, and P.I. Prado

11 MAI 2015

- 328 Evaluating Timberland Investment Opportunities in the United States: A Real Options Analysis

B. Mei and M.L. Cluster

- 336 Timberland Ownerships and Reforestation in the Southern United States

X. Sun, D. Zhang, and B.J. Butler

fire & fuels management

- 344 The Discriminatory Ability of Postfire Tree Mortality Logistic Regression Models

L.M. Ganio, T. Woolley, D.C. Shaw, and S.A. Fitzgerald

forest ecology

- 353 Density of Large Snags and Logs in Northern Arizona Mixed-Conifer and Ponderosa Pine Forests

J.L. Ganey, B.J. Bird, L.S. Baggett, and J.S. Jenness

forest management

- 363 Influence of Herbicides and Improvement Cutting, Fertilization, and Prescribed Fire on Planted Longleaf Pine Development

J.D. Haywood

- 370 Forest Carbon Offsets Revisited: Shedding Light on Darkwoods

G.C. van Kooten, T.N. Bogle, and F.P. de Vries

harvesting & utilization

- 381 Minnesota's Logging Businesses: An Assessment of the Health and Viability of the Sector

C.R. Blinn, T.J. O'Hara, D.T. Chura, and M.B. Russell

policy

- 388 Implementation of the Forest Service Open Space Conservation Strategy in Washington State: Exploring the Role of the National Forest System

R.J. Pringle, L.K. Cerveny, and G.A. Bradley

silviculture

- 397 Efficacy and Associated Factors of Even- and Uneven-Aged Management to Promote Oak Regeneration in the Missouri Ozarks

Z. Fan, Q. Yao, D. Dey, M. Spetich, A. Ezell, S. Shifley, J. Kabrick, and R. Jensen
