

Forestry

VOLUME 85 NUMBER 3 2012

Reviews

Forest succession and terrestrial–aquatic biodiversity in small forested watersheds: a review of principles, relationships and implications for management

R. T. Brooks, K. H. Nislow, W. H. Lowe, M. K. Wilson and D. I. King 315

The last great forest: a review of the status of invasive species in the North American boreal forest

L. A. Sanderson, J. A. McLaughlin and P. M. Antunes 329

Original articles

Oak decline and red oak borer outbreak: impact in upland oak-hickory forests of Arkansas, USA

L. J. Haavik, J. S. Jones, L. D. Galligan, J. M. Guldin and F. M. Stephen 341

A non-asymptotic sigmoid growth curve for top height growth in forest stands

J.-D. Bontemps and P. Duplat 353

Nutritional status of *Quercus suber* populations under contrasting tree dieback

L. Morillas, A. Gallardo, M. Portillo-Estrada and F. Covelo 369

Development of regional height to diameter equations for 15 tree species in the North American Acadian Region

B. Rijal, A. R. Weiskittel and J. A. Kershaw 379

Monitoring forest/non-forest land use conversion rates with annual inventory data

F. A. Roesch and P. C. Van Deusen 391

The suitability of Doppler lidar for characterising the wind field above forest edges

K. Träumner, A. Wieser, B. Ruck, C. Frank, L. Röhner and C. Kottmeier 399

Effect of local species composition on topsoil properties in mixed stands with silver fir (*Abies alba* Mill.)

J. G. Paluch and P. Gruba 413

Production of colchicine-induced autotetraploids as a basis for sterility breeding in *Acacia mangium* Willd

J. L. Harbard, A. R. Griffin, S. Foster, C. Brooker, L. D. Kha and A. Koutoulis 427

The impact of forest stand structure on red squirrel habitat use

S. Flaherty, G. Patenaude, A. Close and P. W. W. Lurz 437
