

Forestry

VOLUME 85 NUMBER 4 2012

Review

- Additionality and climate change mitigation by the UK forest sector
G. Valatin 445

Original articles

- Anticipatory vs adaptive optimization of stand management when tree growth and timber prices are stochastic
T. Pukkala and S. Kellomäki 463
- Structure and dynamics of temperate lowland natural forest in the Białowieża National Park, Poland
S. Miścicki 473
- Temperature and moisture effects on respiration rate of decomposing logs in a Sitka spruce plantation in Ireland
S. Olajuyigbe, B. Tobin and M. Nieuwenhuis 485
- Herbivore and human impacts on woody species dynamics in Maputaland, South Africa
J. Y. Gaugris, C. A. Vasicek and M. W. Van Rooyen 497
- Morphological and ecophysiological responses of sheep laurel (*Kalmia angustifolia* L.) to shade
A. U. Mallik, J. R. Wang, L. S. Siegwart-Collier and B. A. Roberts 513
- Propensity score methods for assessing habitat selection with telemetry data
P. C. Van Deusen and L. L. Irwin 523
- The social benefits of increasing protected natural areas: an Eastern Canadian case study using the contingent valuation method
J. J. Wilson, V. A. Lantz and D. A. Maclean 531
- Comparison of location-based, attribute-based and hybrid regionalization techniques for mapping forest site productivity
W. Aertsen, V. Kint, K. Von Wilpert, D. Zirlewagen, B. Muys and J. Van Orshoven 539
- Effects of partial cutting and partial disturbance by wind and insects on stand composition, structure and growth in boreal mixedwoods
B. Gendreau-Berthiaume, D. D. Kneeshaw and B. D. Harvey 551
