ISSN 0037-5349

## TABLE OF CONTENTS

Stem breakage and forking in low and high elevation <i>Pinus tecunumanii</i> . By <i>B. I. Nyoka, P. Tongoona</i> and <i>C. M. Gumbie</i> . . . . .	1	Two-dimensional penalized splines via Gibbs sampling to account for spatial variability in forest genetic trials with small amount of information available. By <i>E. P. Cappa, M. Lstiburek,</i> <i>A. D. Yanchuk</i> and <i>Y. A. El-Kassaby</i> . . . . .	25
Heritabilities, Intertrait Genetic Correlations, G x E Interaction and Predicted Genetic Gains for Acoustic Velocity in Mid-rotation Coastal Douglas fir. By <i>K. J. S. Jayawickrama,</i> <i>T. Z. Ye</i> and <i>G. T. Howe</i> . . . . .	8	Clonal Variation in Lateral and Basal Rooting of <i>Populus</i> Irrigated with Landfill Leachate. By <i>R. S. Zalesny Jr.</i> and <i>J. A. Zalesny</i> . . . . .	35
An Optimised Protocol for Fluorescent-dUTP Based SSR Genotyping and its Application to Genetic Mapping in <i>Eucalyptus</i> . By <i>F. Li</i> and <i>S. Gan</i> . . . . .	18
