TABLE OF CONTENTS

- A genetic study of *Pinus parviflora* on Ulleung Island of Korea, Compared to *P. parviflora* of Japan and *P. armandii* of China.
By H.-Y. Gil, E. H. Lee, I.-Y. Choi, M. S. Roh and C. S. Chang 233
- Genetic consequences of subtropical rainforest fragmentation on *Macadamia tetraphylla* (Proteaceae).
By C. S. Spain and A. J. Lowe 241
- Strong Genetic Control of High Wood Specific Gravity in Young Progenies of *Pinus brutia*: Potential of Early Selection for Industrial Plantations.
By K. Yildirim, H. Öztürk, S. Siklar, O. D. Balkiz and Z. Kaya 249
- Eucalyptus fastigata*: its current status in New Zealand and breeding objectives for the future.
By S. K. Kennedy, H. Dungey, A. D. Yanchuk and C. B. Low 259
- Threshold selection for rust resistance in hybrid poplar: Population response to mass selection.
By B. J. Stanton 266
- Genetic variation between and within *ex-situ* native-provenance collections of *Pinus radiata* D. Don planted in Australia and New Zealand.
By L. Bian, W. J. Gapare, M. Ivković, P. Jefferson and H. X. Wu 276
- Primer Note: Microsatellite-AFLP development for *Araucaria araucana* (Mol.) K. Koch, an endangered conifer of Chilean and Argentinean native forests.
By G. Marconi, M. A. Martín, M. Cherubini, L. Raggi, F. Drake, F. Villani, E. Albertini and C. Mattioni 285
- Transcript abundances of LIM transcription factor, 4CL, CAL5H and CesAs affect wood properties in *Eucalyptus globulus*.
By N. Negishi, K. Nanto, K. Hayashi, S. Onogi and A. Kawaoka 288
