

Silvae Genetica

ISSN 0037-5349

TABLE OF CONTENTS

| | | | |
|--|----|--|----|
| Identification of SNPs in candidate genes potentially involved in bud burst in European beech (<i>Fagus sylvatica</i> L.). By <i>M. Müller, S. Seifert</i> and <i>R. Finkeldey</i> | 1 | Investigation of gas exchange and biometric parameters in isogenic lines of poplar differing in ploidy. By <i>L. Atanet Alía, D. Lüttchwager</i> and <i>D. Ewald</i> | 46 |
| How small and constrained is the genome size of angiosperm woody species. By <i>D. Ohri</i> | 20 | Estimation of genetic parameters for height using spatial analysis in <i>Tsuga heterophylla</i> full-sibling family trials in British Columbia. By <i>E. P. Cappa, A. D. Yanchuk</i> and <i>C. V. Cartwright</i> | 59 |
| Genetic variation and origin of teak (<i>Tectona grandis</i> L.f.) native and introduced provenances. By <i>G. H. Huang, K. N. Liang,</i> <i>Z. Z. Zhou, J. M. Xu</i> and <i>H. M. Ma</i> | 33 | Near rotation-length performance of selected hybrid larch in Central Maine, U.S.A. By <i>M. S. Greenwood, B. E. Roth,</i> <i>D. Maass</i> and <i>L. C. Irland</i> | 73 |
