

Silvae Genetica

ISSN 0037-5349

TABLE OF CONTENTS

- Provenance by site interaction and stability analysis of European beech (*Fagus sylvatica* L.) provenances grown in common garden experiments.
By S. Stojnić, S. Orlović, D. Ballian, M. Ivanković, M. Šijačić-Nikolić, A. Pilipović, S. Bogdan, S. Kvesić, M. Mataruga, V. Daničić, B. Cvjetković, D. Miljković and G. von Wuehlisch 133
- Expression of three phenylpropanoid pathway genes in Scots pine (*Pinus sylvestris* L.) in open-pollinated families with differing relative wood densities during early and late wood formation.
By K. Kanberga-Silina, A. Jansons and D. Rungis 148
- Genetic and phenotypic correlations among volume, wood specific gravity and foliar traits in white spruce (*Picea glauca* (Moench) Voss).
By C. Pike and R. A. Montgomery 159
- Use of genetic markers to build a new generation of *Eucalyptus pilularis* breeding population.
By P. H. M. da Silva, M. Shepherd, D. Grattapaglia and A. M. Sebbenn 170
- Tracing the origin and species identity of *Quercus robur* and *Quercus petraea* in Europe: a review.
By C. Blanc-Jolivet and M. Liesebach 182
- PCR-RFLP analysis of cpDNA in *Gigantochloa scortechinii* (Poaceae: Bambuseae) in Peninsular Malaysia and implications for the use of cpDNA markers in systematic studies.
By N. Dhanendiren, H. Y. Ong, G. Khoo, K. M. Wong and W. L. Goh 194
